THE DIRECTOR OF
CENTRAL INTELLIGENCE

National Intelligence Council

9 September 1983

FILE COPY

NOTE FOR: DCI

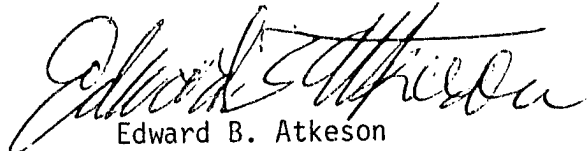

FROM: NIO/GPF

SUBJECT: SACEUR Concern Over Intelligence
Community Coordination

1. I have spoken with both the DDI/SOVA and DIA representatives who attended the briefing for General Rogers; both feel that the attached letter would be useful in calming the General's concern about IC coordination procedures.

2. It is evident that General Rogers is still upset primarily by continued discussions of the Airland Battle concepts in Europe. This briefing (which he liked) focused on what we know about Soviet reaction to the Army manual dealing with ALB. His remark about the Intelligence Community was peripheral to this issue. For your information,

[REDACTED] I am
sure General Rogers is feeling some of that heat, too.
